

Sivic Solutions Group
In conjunction with the
Green River Regional Educational Cooperative

Announces

Cost Savings with Medicaid Billing

(Workshop #061-13)

To operate a compliant Medicaid claiming system requires school district staff operating the system to have an understanding of the background and requirements of the Medicaid program for special education children. Through the years of schools and special education experience of our staff, SSG (Sivic Solutions Group) has developed a depth of understanding in both Medicaid policies and special education requirements and are able to bridge the communication between these two fields.

SSG will create a detailed outline of the specific rules and regulations applicable to the school-based Medicaid program. These rules and regulation will be categorized to address specific user groups, such as policy-makers, program administrators and clinicians. SSG specializes in providing schools system solutions and Federal claiming services in over ten states and hundreds of school districts. We have the most sophisticated web based products in the market to support your needs.

Join us as the Sivic Solutions Group shares proven cost savings they can provide to the GRREC districts through their partnership with AEPA. *If your district is currently paying more than 6% and/or is struggling with Medicaid Billing Service, plan to come to this informational event.*

For:	Superintendents, Special Education Directors, Finance Directors, Health Coordinators, Family Resource Youth Services Personnel
